EDUCATION

Maharishi Markandeshwar (Deemed To Be University)	**Haryana, India**
Bachelor of Technology (Computer Science and Engineering) - **GPA 9.084 / 10**	2021 - Present
Manimukunda Secondary School / College	**Butwal, Nepal**
Higher Secondary - **GPA 3. 57 / 4**	2019 – 2021
Children Paradise English Boarding High School	**Kapilvastu, Nepal**
High School – **GPA 3.55 / 4**	2007 - 2019

SKLLLS SUMMARY

- **Language :** Java, Python, C, JavaScript, SQL
- **Framework :** Pandas, Numpy, Matplotlib, Seaborn, BootStrap, Milligram, Tailwind CSS
- **Tools :** MySQL
- **Platform :** Jupyter Notebook, Visual Studio Code, Eclipse IDE

PROJECTS

SNAKE GAME | LINK

Developed a classic Snake Game in Java using Swing, where players control a snake to eat apples and grow longer, avoiding collisions. The game features smooth arrow key controls, real-time score updates, and a game-over screen, demonstrating effective use of Java functions for graphical rendering and event handling.

GESTURE CONTROL SYSTEM

Developed a gesture control system utilizing an ultrasonic sensor and Arduino board to facilitate hands- free interaction with video playback. The system allows users to seamlessly control video playback functions such as play/pause, volume adjustment, and navigation (forward/backward) through simple hand gestures.

ACHIEVEMENT

Compex Scholarship (2021) I was awarded the prestigious COMPEX Scholarship after successfully passing the competitive exam. This scholarship, provided by EDCIL, covers all my college expenses, enabling me to pursue my education without financial burden

INTERESTS

- Playing Cricket
- Coding
- Fishing
- Listening Music
- Exploring New Technologies
